

CRP Technical Solutions, Inc.

A Manufacturer's Representative

CRP Technical Solutions is a small, highly technical sales organization. We sell engineering solutions for our manufacturers. Our primary focus is on electrical interconnect components and systems for the military, aerospace, commercial and medical industries. Being intimately familiar with these industries, we are committed to both short and long-term sales. We have excellent engineering and purchasing relationships at the major OEMs and subcontractors in Indiana, Ohio, Kentucky and Michigan.

Guiding Principles

Limited Line Representative
Focused on Short AND Long Term Sales

Actions We Take on Behalf of our Manufacturers

Sales Call Reports
Lead Follow-Up Report
Open Projects Report
Progress Reviews
Joint Customer Visits

President's Background: After earning a Bachelor of Science Degree in Electrical Engineering from Purdue University, he served seven years as a commissioned officer in the Marine Corps. Upon leaving the military, he started a career as a sales manager with Raychem Corporation and Tyco Electronics Corporation until starting CRP Technical Solutions.
